COMPANY PROFILE

About Us

Founded in 2001, Fussen has been consistently dedicated to the research, development, and innovation of high-pressure water jet technology, with more than 20 years of technical expertise in high-pressure plunger pumps.

Through advanced manufacturing processes and strict quality control, Fussen delivers pumps that are high quality, durable, and reliable. Our equipment is widely applied in ship cleaning, industrial paint and rust removal, petrochemicals, and building maintenance, and has gained broad recognition in both domestic and international markets.

Professional

International

Brand-Oriented

Professional

Professional High-Pressure Cleaning Technology

Fussen develops advanced high-pressure pump technology that ensures efficiency, durability, and stability across diverse industrial applications.

The high-pressure pump, as the core component of a high-pressure cleaner, directly determines the overall efficiency and stability of the system. With deep insights into industry requirements, Fussen has developed a comprehensive range of professional cleaning solutions designed to meet diverse needs across different pressure levels, flow rates, and working environments.

Fussen's high-pressure plunger pumps are engineered with strict material selection, high-precision machining, and advanced sealing technology to ensure reliability and performance.

Fussen pumps are equipped with ceramic and alloy steel plungers to ensure reliable performance and durability. The ceramic plungers offer excellent wear and corrosion resistance with a smooth, low-friction surface that extends seal life, while the alloy steel plungers provide exceptional strength and impact resistance for high-pressure applications. Together with high-quality water and oil seals, the system maintains stable operation and long service life. For particularly demanding environments, Fussen also provides customized corrosion-resistant and high-temperature-resistant seal solutions. As a result, the pumps deliver reliable stability, superior efficiency, and extended durability under diverse operating conditions.

International

International Quality Standards and Worldwide Reach

Fussen is committed to delivering products that meet the highest international standards and are shipped to customers worldwide.

The company operates in full compliance with the ISO9001 quality management system, ensuring excellence throughout design, production, testing, and service. All products are CE certified and comply with international safety requirements. With outstanding quality and consistent reliability, Fussen's pumps are widely used across Europe, the Middle East, Southeast Asia, and South America. Through long-term partnerships and a proven record of performance, the company has earned the trust of customers around the globe.

Brand-Oriented

Creating Value with Water

Fussen's brand philosophy is built on the belief that water is not only a resource but also a force for creating value.

The company is committed to delivering high-quality pumps while advancing intelligent, efficient, and eco-friendly cleaning technology. Through continuous investment in research, development, and product optimization, Fussen leads the high-pressure water jet industry forward. Looking to the future, the company will continue to innovate and provide global customers with more professional, reliable, and sustainable cleaning solutions.

Model(s)

Questa apparecchiatura o sistema di protezione e le sue eventuali varianti accettate sono descritte nel presente Certificato e nell'allegato dello stesso. This equipment or protective system and any acceptable variation thereto are described in this Certificate and its Annex.

L'ECM, Organismo Notificato n° 1282 in conformità all'art. 17 della Direttiva 2014/34/UE del Parlamento europeo e del Consiglio del 26 febbraio 2014, certifica che questa apparecchiatura o sistema di protezione verificata secondo la procedura di cui all'allegato III, Modulo B, è conforme ai requisiti essenziali di sicurezza e salute per il progetto e la costruzione di apparecchiature e sistemi di protezione destinati ad essere utilizzati in atmosfere potenzialmente esplosive, definiti nell'allegato II della Direttiva.

Le verifiche ed i risultati di prova sono registrati nel rapporto a carattere riservato n° PRD-2025-DQ70.

I requisiti essenziali di sicurezza e salute sono assicurati dalla rispondenza alle Norme applicate: EN IEC 60079-0:2018+A11:2024, EN 60079-1:2014+A11:2024, EN IEC 60079-7:2015+A1:2018+A11:2024, EN IEC 60079-15:2019.

Questo Certificato di esame UE del tipo è relativo soltanto al progetto, all'esame ed alle prove dell'apparecchiatura o sistema di protezione specificato in accordo con la Direttiva 2014/34/UE. Ulteriori requisiti di questa Direttiva si applicano al processo di produzione e fornitura dell'apparecchiatura o sistema di protezione: questi requisiti non sono oggetto del presente certificato.

ECM, Notified Body No. 1282 in accordance with Article. 17 of Directive 2014/34/EU of the European Parliament and of the Council of 26 February 2014, certifies that this equipment or protective system was tested according to the procedure set out in Annex III, Module B, complies with the essential health and safety requirements for the project and construction of equipment and protective systems intended for use in potentially explosive atmospheres given in Annex II of the Directive.

The examination and test results are recorded in confidential report no. PRD-2025-DQ70.

The essential health and safety requirements are assured by compliance with applied Standard: EN IEC 60079-0:2018+A11:2024, EN 60079-1:2014+A11:2024, EN IEC 60079-7:2015+A1:2018+A11:2024, EN IEC 60079-15:2019.

This EU-type examination certificate relates only to the design, examination and tests specified equipment in accordance with Directive 2014/34/EU. Further requirements of the Directive shall be applied to the manufacturing process and supply condition: these requirements are not covered by this certificate.

L'apparecchiatura o il sistema di protezione deve riportare i seguenti contrassegni:

The equipment shall be marked with the following symbols:

II 2G Exdb mb ib px IIC T4 Gb, II 2D Ex tb pD IIC T130°C Db

Founded in 1978, the International Marine Purchasing Association has been the leading Association for marine purchasing and supply professionals across the globe. The present member has fulfilled all requirements related to the application process and commits to observing the Association's Bylaws.

MILESTONES

2001

Fussen was established in Guangzhou China

2003

Independently developed electric and fuel powered high pressure washer

2005

Fussen high pressure washer conquer the entire national mid-to-high-end market

2007

Start researching and developing ultra-high-pressure water jet technology

2010

Awarded the ISO 9001 management certification

2012

Fussen high-pressure washer has passed international CE certification

2015

Awarded ISO 14001 Environmental Certification and OHSAS 45001 Occupational Health and Safety Certification

2016

Successfully listed on the New Third Board and recognized as a high-tech enterprise

2017

Recognized as the Guangdong Province Ultra-High-Pressure Water Jet Cleaning Intelligent Equipment Engineering Technology Research Center

2019

Establishing a high-pressure water jet technology research and development center and initiating a new mode of industry-education integration in technology research and development

2023

Awarded the titles of 'Specialized and Innovative Small and Medium-Sized Enterprises' and 'Innovative Small and Medium-Sized Enterprises' in Guangdong Province, and jointly established the Ultra-High-Pressure Pump Technology Research Center with the Shunde Research Institute of Beijing University of Science and Technology

FKE-S SERIES

Electric High Pressure Washer

Key Components

■ Intelligent Electric Control Box (Soft Start)	■ Booster Pump
■ Industrial-Grade Motor	■ Float Valve
■ Stainless Steel High-Pressure Plunger Pump	■ Carbon Steel Heavy Duty Frame
■ Pressure Regulating Valve	■ Pneumatic Tires
■ Safety Valve	■ Swivel Wheels
■ Stainless Steel Pressure Gauge	■ Dump Gun
■ Stainless Steel Protective Panels	■ Fan-Shaped Nozzle
■ Water Tank	■ High-Pressure Hose

Optional Accessories

Rotating Nozzle

Dump Gun with Rotating Nozzle

Stainless Steel Pump

Features

Convenient to Move

Stylish appearance, compact design, easy to move, and space-saving.

Industrial-Grade Motor

Six-pole, low-speed motor with low noise, high durability, and long service life.

Stainless Steel Protective Panel

Stainless steel panels protect key parts and improve corrosion resistance.

Premium Plunger Pump

High-performance stainless steel pump with alloy plungers and premium seals for durability and long-term stability.

Low Water Level Protection

Large-capacity stainless steel water tank with float valve prevents the pump from dry running and protects the machine from damage.

■ Foot Valve

Dump Gun with Rotating Nozzle

Flexible Lance

Foot Valve

Features

Industrial-Grade Motor

Four-pole, low-speed motor with low noise, high durability, and long service life.

Intelligent Soft Start

Soft starter ensures smooth motor start-up, extending machine lifespan.

Premium Plunger Pump

High-performance stainless steel pump with alloy plungers and premium seals for durability and long service life.

Stainless Steel Frame

Corrosion-resistant frame suitable for long-term use in marine environments.

Low Water Level Protection

Large-capacity stainless steel water tank with float valve prevents pump damage from dry running.

SERIES

Hot Water High Pressure Washer

Key Components

■ Intelligent Electric Control Box	■ Pressure Regulating Valve
■ Industrial-Grade Motor	■ High-Precision Filter
■ Diesel Boiler	■ Stainless Steel Pressure Gauge
■ Ignition Device	■ High-Strength Plastic Shell
■ Oil Pump	■ Solid Tires
■ High-Pressure Plunger Pump	■ High-Pressure Gun
■ Pressure Switch	■ Fan-Shaped Nozzle

Optional Accessories

Rotating Nozzle

Control Panel

Brass Pump

Nickel Plated Brass Pump

Stainless Steel Pump

Features

Simple Control

Easy-to-use panel with temperature adjustment knob and alarm indicator light.

Energy-Saving

Pressure switch shuts down the motor when the gun is released, saving energy and protecting the environment.

Premium Plunger Pump

High-pressure plunger system with ceramic plungers and durable seals for long-term stable operation.

Premium Oil Pump

European igniter and oil pump with high combustion efficiency; diesel boiler heats up to 90 °C.

■ Intelligent Control Box	■ High-Precision Filter	■ Gearbox
■ Diesel Engine	■ Fan-Shaped Nozzle	■ Solid Tires
■ High-Pressure Plunger Pump	■ Battery	
■ Safety Valve	■ High-Pressure Hose	
■ Pressure Regulating Valve	■ Swivel Wheels	
■ Fuel tank	■ Carbon Steel Frame	
■ Stainless Steel Pressure Gauge	■ High-Pressure Gun	

Optional Accessories

Rotating Nozzle

Brass Pump

Nickel Plated Brass pump

Stainless Steel Pump

Features

Convenient to Move

Stylish appearance, compact design, easy to handle, and space-saving.

Premium Plunger Pump

High-pressure pump with ceramic plungers and durable seals for long-term stable performance.

Powerful Diesel Engine

Well-known brand engine with low noise, high durability, and long service life.

Models and Specifications

Model	Flow Rate (L/min)	Pressure (Bar/Mpa/PSI)	Power (kW)	RPM (Rpm)	Weight (kg)	Dimensions (L x W x H mm)
FCD 15/50	15	500/50/7250	15	1450	285	1170 x 920 x 1120
FCD 21/35	21	350/35/5075	15	1450	285	1170 x 920 x 1120
FCD 22/50	22	500/50/7250	22	1450	303	1170 x 920 x 1120
FCD 18/60	18	600/60/8700	22	1450	303	1170 x 920 x 1120
FCD 30/50	30	500/50/7250	30	1450	350	1170 x 920 x 1120

FED SERIES

Diesel High Pressure Washer

Key Components

■ Intelligent Control Box	■ Battery
■ Diesel Engine	■ Safety Rupture Disc
■ Coupling	■ Stainless Steel Pressure Gauge
■ Large-Capacity Diesel Tank	■ Stainless Steel Water Tank
■ Float Valve for Water Tank	■ Pressure Regulating Valve
■ Water Tank	■ Stainless Steel High-Pressure Plunger Pump
■ High-Precision Filter	■ Carbon Steel Heavy-Duty Frame

Optional Accessories

■ Rotating Nozzle
■ Pipe Cleaning Nozzle
■ Foot Valve
■ Hose Reel
■ High-Pressure Pipe
■ Dump Gun
■ Fan-Shaped Nozzle

Dump Gun with Rotating Nozzle

Stainless Steel Pump

Features

Easy to Control

Intelligent electric control box with LCD display for flexible and simple operation.

Premium Plunger Pump

High-pressure pump with ceramic plungers and durable seals for long-term stable operation.

Powerful Diesel Engine

Well-known brand engine with low noise, high durability, and long service life.

Low Water Level Protection

Large-capacity stainless steel water tank with internal float valve prevents pump damage from dry running.
